

# C.V

**Name:** *Eltaher ElZein Eltaher Alfawal*

**Date & Place of Birth** : 25/7/1983 Khartoum  
**Nationality** : Sudanese  
**Marital status** : Married  
**Contact Address** : Sudan – Portsudan.  
Mobile: +249 999982082  
+249 912174260  
Email: [taherelzain@gmail.com](mailto:taherelzain@gmail.com)  
**Pass port No.** : C-0251643

## **QUALIFICATION**

Technical Diploma in *Electrical Engineering* with Grade (*Third class*) in February 2006 from **Red Sea University**.

## **OTHERS QUALIFICATION**

### **Internal Sudan:**

- ▶ *Computer Applications Diploma*, from: Al Waffa Academy of Computer Science, Communications & Internet
- ▶ *Power & Electronics technologies* from Wadi Alneel University – Faculty of Engineering.

## **OTHERS**

- ▶ National service release certificate.
- ▶ Registered with Sudan engineering council.
- ▶ Driving license.

## **LANGUAGE**

- ▶ Arabic - mother tongue
- ▶ English - speak & write/read.

## **EXPERIENCE**

- ▶ Current Position : **Generator Mechanic in AU/UN Hybrid operation in Darfur.**

### Description my job:

- Install and maintain small and large generator sets and related equipment within the mission in compliance with the engineering standards and practices.
- Carry out scheduled and routine operations, maintenance, emergency repairs and overhaul of generators (static/mobile), including the installation of auxiliary fuel systems, such as tanks, transfer pumps and pit works.

- Safe keep and efficient use of tools and specialized equipment including vehicle assigned.
- Ensure adequate reserve of fuel and supply in stock including spare parts.
- Call the attention of the Supervisor when the stocks are low in inventory.
- Perform other duties as assigned by the Supervisor.

► November 2009 To June 2010: **Power Maintenance Team Leader (Red sea region) in Abuabid Engineering Enterprises** in Zain (BTS sites) project – Maintenance department.

- Description my job:
- Assign, train, compensate and mobilize job requested of teams.
- Prepare all reports required from the management & the customer.
- Analyze the region office perform and submit reports of such analyses to the management.
- Following up all teams work and fully responsible on all teams and the regional office include all admin issue \ invoicing and spare parts stoke and so on.
- Installing and trouble shooting and maintenance for:
  - i. Diesel generator sets (mechanical, electrical & control). [Ascot, Paramac, Volvo, Mrapco, FGWilson, AjPower].
  - ii. Air conditioning systems & air conditioning control systems (window , split unit)
  - iii. Power system & power control systems.
  - iv. External fuelling systems.
  - v. Fire & Heat alarm systems & Fire & Heat alarm control systems.

► From October 2008 to November 2009: **Electro' mechanical Technician** in **Power & Communication Technologies Company (PCT)** in MTN (BTS sites) project - Maintenance department.

Description my job: Trouble-shooting and maintenance for:

- Diesel generator sets (mechanical, electrical & control).[Mets, Meico, FGWilson].
- Air conditioning systems & Air conditioning control systems (split unit).
- Power system & Power control systems.
- Fire & Heat alarm systems & Fire & Heat Alarm control systems.

- ▶ From February 2007 to April 2007: as **Technical Engineer** in **Decor House Transport Company** in Maintenance department.

Description my job: Trouble-shooting and maintenance for:

- Trucks & Flats electrical systems.
- D.C Batteries.

- ▶ From January 2007 until date: **Co-operated electrometrical technician with Brilliant engineering enterprises.**

Description my job: Install and trouble-shooting and maintenance for:

- Generator sets (mechanical, electrical & control).
- Power & Earth systems.
- External fuelling systems.

## **TRAINING**

- ▶ National Electricity Corporation – Generation Dept. – Station (C). (From 24/5/2006 TO 28/7/2006).
- ▶ Décor House Transport Company – Maintenance department. (From August 2006 TO January 2007).
- ▶ Red Sea University – Electronics Lab of the Applied Sciences Faculty (from 1/5/2007 TO 1/7/2008).

## **SKILLS**

- ▶ Hard Worker.
- ▶ Computer Knowledge.
- ▶ Good ability to learn quickly new technologies.
- ▶ Good ability to work on my own and as a part of a team.
- ▶ Good ability to manage my own time and workload.
