CORE COMPETENCIES

- Project / Construction Management
- Risk Management
- Project Scheduling
- Workforce Management
- Audits & Compliance
- Costing & Budget Optimization
- Tender/ Contract Management
- Procurement
- Technical Solutions
- Design Engineering Collaboration
- Cross-functional Coordination
- Extension of Time Claim
- Earn Value Management (EVM)

IT SKILLS

- Designing Software: AutoCAD, Bluebeam and ETABS
- Project Management Software: Primavera P6 [Version 22] and Microsoft Project Professional
- Office Tools: Microsoft Power BI (basic), Microsoft Office & PowerPoint and Adobe

CERTIFICATION

- Project Management Professional (PMP) Certification Training Certification from Simplilearn, Singapore in 2021
- Primavera P6 Training Certification by Procons Academy, Sri Lanka [certified by Project Management Institute, USA]

NOTABLE ACCOMPLISHMENTS ACROSS THE CAREER

- Successfully completed fuel hydrant system commissioning partially during 2022
- Successfully completed the 414MW combined cycle power plant during 2019
- Accomplished baseline and project monitoring plan of buildings construction in Dhaka, Bangladesh during 2015
- Track record of ensuring that engineering, procurement, construction & commissioning activities were completed within scheduled time & cost parameters

EDUCATION

- Bachelor of Science (Civil Engineering) from Dhaka University of Engineering & Technology, Bangladesh in 2013
- Diploma in Engineering (Civil) from Dinajpur Polytechnic Institute, Bangladesh in 2007

WORK EXPERIENCE

Apr.'19 – till date | WEC Engineers & Constructors Pte Ltd., Singapore | Project Planner

Key Result Areas:

- Managing the Engineering Procurement, Construction and Commissioning services for aviation fuel facilities, infrastructure projects and plant engineering works
- Executing project management tasks by managing project scope, deliverables, schedule and budget
- Conducting Project progress through S-curve, master scheduling, logic (PERT, CPM) & time scale logic diagram, Bar chart, manpower histogram, resource & cost curve and management reporting
- Providing engineering design and related services that supports company's design-build construction business/ group managed pre-construction planning and services
- Negotiating with contractors & suppliers for materials and services; ensuring that each stage of project progresses on-time and within budget
- Managing changes in project scope, identifying potential risks and developing contingency plans
- Coaching, mentoring and motivating team members & contractors and influencing them to take positive action and accountability for their assigned work
- Conducting & directing construction phase services like field engineering, value engineering, shop drawing reviews, construction quality assurance and inspection
- Planning & implementing creative technical solutions to complete a project successfully within time and budget with resources available and maximizing the operational result and profits

SOFT SKILLS

- Problem Solving
- Leadership
- Collaborator
- Communicator
- Analytical

PERSONAL DETAILS

Date of Birth: 27 December 1986
Languages Known: English, Hindi & Bangla
Present Address: House#303/7, Baseline road, Seeduwa, Gampaha, Sri Lanka
Nationality: Bangladeshi
Passport Details: EL0412791 & valid Mar'28
Visa Status: SSP/00/00468/0027 & validity 22 Apr'24
Marital Status: Married
No. of Dependents: 1

- Managing and maintaining project planning and reporting systems in accordance with the requirements of the contract
- Preparing man-hour and material estimates, and monthly budget reports and submitting progress report to project controls
- Coordinating and planning field assignments for inspection & expediting, site supervision activities, and other third parties services
- Ensuring services are supplied to requirements and within cost and delivery targets
- Planning and scheduling work load of field personnel, ensuring that the assignment requirements are understood and met by field personnel
- Assisting field personnel in the execution of the assigned responsibilities and evaluating their performance
- Reviewing all field reports prior to submittal to the client

PREVIOUS EXPERIENCE

Aug'17 – Apr'19 | Sembcorp Design & Construction International (Bangladesh) Limited, Singapore | Planning Engineer

Key Result Areas:

- Site work planning, execution in accordance to the master programme. To develop the L-3, L-4, L-5 or detail working programme based on the milestone date.
- To develop the S-curve, catch-up programs and manpower requirements etc.
- To prepare the monthly forecast schedule and report bi-weekly and status reporting.
- Use planning/scheduling principles and methods including CPC scheduling techniques, resource loading of schedules, field progress measurement.
- Analyze critical path and highlighted to the project team.
- Conduct schedule review, to prepare method statement and work procedure, and ensure works are carried out according to method statement.
- Coordinate with relevant authorities, clients, consultants, vendors, design team, contractors and consortium partner to ensure smooth project execution and compliance to all government and HSE regulation/ requirements.
- Site management, identify and resolve day-to-day site issues that may arise.
- Prepare project status reports by collecting, analyzing, summarizing information and recommending actions.
- Manage procurement of resources, goods receiving inspection, record-keeping, monitor and control material used on site.
- Liaise with contract engineer/manager for monthly progress report submission and internal QC engineer to establish standards of performance and quality of works are carried out. As well as design coordination to assist on-site progress.
- Coordinate with consortium partners to achieve the testing & commission/project milestone and monthly progress report submission.

Sep'15 – Aug'17 | Greenland Builders Ltd., Dhaka, Bangladesh | Engineer (Planning & Coordination)

Nov'14 – Aug'15 | The Union Construction Limited, Dhaka, Bangladesh | Project Engineer & Project Coordinator

Jan'14 - Oct'14 | Stone Bricks Limited, Dhaka, Bangladesh | Project Engineer

Jan'13 - Dec'13 | ASA Planning and Engineering, Gazipur, Bangladesh | Assistant Engineer

PROJECTS:

1. **Project:** Expansion of Apron and Fuel Hydrant System at Terminal 2 Area of Noi Bai International Airport, Hanoi, Vietnam
Period: May'22- Dec'22 [Baseline master schedule]
2. **Project:** Development and Upgrading of Fuel Hydrant System at Bandaranaike International Airport, Colombo, Sri Lanka
Period: Apr.'19 – till date
3. **Project:** 414 MW Dual Fuel Fired Combined Cycle Power Plant (civil work) for Sembcorp North-West Power Company Ltd, Sirajganj, S-4, Bangladesh
Period: Aug.'17 – Apr.'19
4. **Project:** Five Residential and one commercial building project construction, Dhaka, Bangladesh
Period: Sep'15 – Aug'17
5. **Project:** Bangladesh Police Liberation War Museum, Dhaka, Bangladesh
Period: Nov.'14- Aug.'15
6. **Project:** One of the largest auto bricks factory construction named Stone Bricks Ltd. in Bangladesh
Period: Jan.'14 – Oct.'14
