Future plans

A good future plan for me is learn about all the processes and all the mechanism for manufacturing of automotive's , learn about marketing and sales tactics .

Represent for Big & International Cars Companies .

Built my own company

Skilled In Management and communication

I appreciate teamwork. I can priorities tasks, manage time effectively and work in stressful conditions. My approach to working with colleagues is to maintain a positive work relationship with them as I do understand the importance of effective communication. I recognize and respect the roles of other workers in the Engines Maintenance and sale field.

I have good communication skills both with my managers and colleges. I have dealt with different social, ethnic, religious, and political backgrounds, certainly without any discrimination.
